

Nusrat Jahan Neela

Full-stack Web Developer (MERN)

Mirpur, Dhaka Bangladesh | (+880) 1673950490 | nusratneela27@gmail.com | [GitHub](#) | [Linkedin](#)

Objective

I am a passionate and creative Front-End Web Developer. I am familiar with a number of web development technologies, including HTML, CSS, JavaScript, React JS, Express JS, and MongoDB. I finished a few amazing full-stack projects. I'm ready to use my one year of MERN Stack experience.

Skills

Web Technologies: HTML5 | CSS | JavaScript (ES6) | React JS | Node JS | React Router | Express JS | Firebase

Frameworks: Bootstrap | Tailwind | React Bootstrap

Comfortable: MongoDB | REST APIs | JWT

Tools: GitHub | VS Code | Figma | Netlify | Vercel | Chrome Dev tool

Projects

1. Toys marketplace: A MERN project. Users can choose any toy and add it to the dashboard. Only login users can add new toys, update the toy for the page and see all the bookings of toys.

- Firebase Authentication
- MongoDB CRUD operations
- Searching method on the All Toys page
- Mobile Responsive

Technologies Used: React JS | React Router | React Bootstrap | React-Hook-From | Express

Links: [Website-Link](#) | [Server-Side-Code](#) | [Client-Side-Code](#)

2. Chef Hunter: A front-end project where users can explore different recipes from Korean to add different recipes from an initial chef.

- Firebase Authentication
- Mobile Responsive
- Add to favorite for initial recipe
- Provide Google and GitHub Sign In

Technologies Used: React JS | React Router | React Bootstrap

Links: [Website-Link](#) | [Server-Side-Code](#) | [Client-Side-Code](#)

3. Flex Jobs: Front-end projects with different types of application-specific jobs are available.

- View details for individual job
- Apply for the specific job
- All jobs are stored in local storage
- Mobile Responsive

Technologies Used: React JS | React Router | React Bootstrap
